

CLAIMS

- 5
1. A method for selling lighting solutions comprising:
installing a lighting system for a customer;
measuring lumens generated from the lighting system; and
determining a customers light usage fee based on the lumens.
- 10
2. The method of claim 1 wherein the lighting system comprises at least one LED.
- 15
3. The method of claim 1 wherein the measuring of the lumens generated by the lighting system comprises measuring the lumens by at least one photodiode.
- 20
4. The method of claim 1 further comprising:
installing an input device to allow customer control of the lighting system.
- 25
5. A method for selling lighting solutions comprising:
installing a lighting system for a customer;
measuring changes of light spectrum generated by the lighting system; and
determining a customers light usage fee based on the changes of light spectrum.
6. The method of claim 5 wherein the lighting system comprises at least one LED.

7. The method of claim 5 wherein the measuring of the changes of light spectrum generated by the lighting system comprises measuring the changes of light spectrum by a photodiode.

5

8. The method of claim 5 further comprising:
installing an input device to allow customer control of the lighting system.

10

9. The method of claim 1 further comprising:
measuring changes of light spectrum generated by the lighting system;
determining a customers light usage fee based on the changes of light spectrum; and

15

installing an input device to allow customer control of the lighting system.

20

10. A lighting solutions system comprising:
means for measuring lumen output of a lighting system; and
means for determining a fee based on the lumen output.

11. The lighting solutions system of claim 10 further comprising:
means to allow customer control of the lighting system.

25

12. The lighting solutions system of claim 11 further comprising:
means for measuring changes in spectrum of the lighting system;
and
means for determining a fee based on changes in spectrum.

13. The lighting solutions system of claim 12 further comprising:
means for selecting a preprogrammed pattern of light to be emitted
from the lighting system;

5 means for measuring the use of the preprogrammed patterns of
light; and

means for determining a fee based on the use of the
preprogrammed patterns of light.

FIG. 20
